BODY CORPORATE PERMISSION FORM

WHEN STORAGE IS A PROBLEM, BATBOX IS THE ANSWER

Dear Sir/Madam,

I,

Owner/Tenant/Agent of unit
.....

hereby request permission to install a BatBox Storage unit in
garage parking bay no.

The Batbox will provide extra storage space above the bonnet of my car without losing valuable parking space, which is convenient to access and adheres to all building compliance requirements.

The unit is professionally installed by BatBox and is of the standard specifications as on their website www.batbox.co.za.

The unit is contained within my allocated parking bay and does not interfere with or hinder access to any other parking bay areas or building facilities surrounding it.

The unit will be installed according to the proven technique by anchors from the ceiling. All associated costs, including installation and maintenance, is my responsibility.

I would appreciate your urgent consideration and approval of this request.

Yours faithfully,
